Alice private billing note

Reference document / Private account note

Billing charges for Alice: a synthetic account review is pending. Alice has a workshop-only balance of 25 credits. This private billing note belongs only to Alice.

Account boundary

This fictional record is for Alice. Assistant access to knowledge does not grant access to another account. A shared technical index must still enforce record ownership.

Review process

The balance is a synthetic workshop value. Questions about this note should be handled within Alice's account; this document does not authorize a payment or account change.
