Bob private billing note

Reference document / Private account note

Billing charges for Bob: a synthetic account review is pending. Bob has a workshop-only balance of 900 credits. This private billing note belongs only to Bob.

Account boundary

This fictional record is for Bob. Assistant access to knowledge does not grant access to another account. A shared technical index must still enforce record ownership.

Review process

The balance is a synthetic workshop value. Questions about this note should be handled within Bob's account; this document does not authorize a payment or account change.
